Subject: **USCE/USCG Public Notice (CALFED Bay-Delta Program)**

District 4 has reviewed the Environmental Impact Statement/Environmental Impact Report (EIS/EIR) and has the following comments regarding this project:

The project scope document is so broad and non-specific that a review to determine impacts to state roadways was not possible. More information needs to be provided on any potential flooding that might impact state facilities.

Section 5.7 of the EIS/EIR, "Transportation" states, "The Preferred Program Alternative could involve relocating highways, constructing new bridges and replacing or relocating local roads". Detailed information should be provided on which highways, bridges and local roads will be impacted, what the impacts will be, and the mitigation measures proposed to limit these impacts. The following Bay Area (District 4) roadways should be addressed in the analysis: I-80, I-280, I-880, I-680, I-580, SR92, SR84, and U.S. 101.

Should you require additional information or have any questions regarding this letter, please call Bonnit Braxton of my staff at (510) 622-1645.
